

List of countries with holding restrictions

Due to the complexity of different tax rates and/or different tax administration requests for foreign residents, KBC restricted the service for home country issued securities, held on behalf of foreign residents. For these types of customers it is therefore excluded to hold, buy and transfer-in the securities types mentioned in the overview.

| Country of issue | Client type | Value type | Securities type |
|------------------|-------------------------|---------------------------|--------------------|
